Summary

Hello! I'm a final year Computer Science Engineering student with a passion for technology and a keen interest in Artificial Intelligence (AI) and its various subfields. I thrive on leveraging smart strategies to achieve complex goals.

Currently honing my skills in Python, Django, and Machine Learning (ML), I strive for excellence in both theoretical knowledge and practical applications. My academic journey has empowered me to comprehend the ever-evolving tech landscape and adapt swiftly.

As a self-driven learner, I am consistently exploring the realms of AI, particularly in the contexts of web development (CS50W/X/P/AI). My commitment to lifelong learning fuels my quest to stay updated with the latest advancements and progress in the tech world.

I aspire to bridge the gap between cutting-edge AI advancements and real-world problem-solving. Let's connect and engage in insightful discussions about technology and the transformative impact it holds on our rapidly changing world.
