Profile Summary

Passionate Full-Stack Developer with a strong foundation in React.js, Node.js, Express.js, and MySQL. Experienced in building and deploying scalable, efficient, and user-friendly applications. Proficient in frontend technologies like Redux, Ant Design, and Framer Motion, along with backend development using RESTful APIs and database management. Skilled in authentication and security implementations, including JWT-based authentication. Dedicated to writing clean, maintainable code and continuously learning new technologies. Enthusiastic about collaborating with cross-functional teams to develop innovative solutions.

Technical Skills

Frontend Development - HTML5, CSS3, JavaScript, React.js, React Router, Context API, Tailwind CSS, Bootstrap, Ant Design, GSAP

Backend Development - Node.js, Express.js, REST APIs, JWT Authentication, WebSockets

Databases - MySQL, MongoDB

Cloud DevOps - AWS (Route 53, S3 Bucket), VPS, CI-CD Pipelines, Docker

Developer Tools - VS-Code, Git, Github, Postman

Other Technologies - Puppeteer, Web Scraping

Projects

Netflix Clone - React.js, Node.js, MySQL Built a feature-rich Netflix-inspired platform with user authentication, personalized dashboard, and seamless video streaming.

Meme App - React.js, Framer Motion, Tailwind CSS Developed an engaging meme generator that dynamically fetches and displays memes using APIs. Integrated smooth animations and an intuitive UI for an interactive user experience.

Myntra Clone - React.js, Framer Motion, Tailwind CSS Engineered a fully responsive Myntra-inspired e-commerce interface with smooth animations and modern UI components. Integrated email functionality for direct user communication and project showcases.

To-Do App With JWT Authentication - MERN Stack (MongoDB, Express.js, React.js, Node.js) Designed and developed a full-stack to-do application with JWT authentication and CRUD functionalities. Ensured secure user management and efficient task organization.

Education

Dr. Babasaheb Ambedkar Technical University, Satara, Maharashtra
Bachelor of Technology (BTech), Computer Science and Engineering

CGPA: 7.32
Aug 2020 – Sept 2024

Internships

Popkornlab IT Services and IT Consulting

Web Development Intern – Remote

Worked on converting React.js projects into Next.js to improve performance and SEO. Contributed to the development of an AI chatbot application, implementing secure login and logout functionality using JWT tokens. Also participated in UI design and front-end improvements to enhance user experience.

Thinqloud Solutions Pvt. Ltd.

Apr 2025 – present

Intern - Onsite

Migrated a WordPress-based website to a React.js framework, enhancing performance, scalability, and user experience as part of the front-end development team at Thinqloud Solutions Pvt. Ltd.

Certifications

React KG Coding

Ready Player 50 Event - Harvard University
